Innspire Media — Website Copy

Oct 10, 2026 · @Parinay Panwar

Positioning & site structure

Innspire Media is positioned as an **AI-first growth company**: we build AI automations and lead-generation systems for four industries, and run the marketing on top of them. The AI work leads; services are how clients get it.

Core line: AI automations and lead generation for B2B startups and manufacturers, Airbnbs and boutique resorts, and clinics and wellness brands.

Why this works for the Claude application: reviewers see a company whose delivery runs on Claude (automations, AI agents, an in-house product), not a traditional agency.

Page	URL	Job of the page
Home	/	Positioning, 4 industries, proof, one CTA
AI Automations & Lead Gen	/ai-automations	What we build, how it works, built on Claude
Land Desk (our product)	/land-desk	In-house AI product for real estate inventory
B2B Startups	/b2b	Pipeline-building for early-stage B2B
Airbnb & Homestays	/airbnb	Direct bookings + guest automation
Boutique Resorts	/resorts	Bookings, events and weddings
Clinics & Healthcare	/clinics	Patient lead gen + appointment automation
Work / Case studies	/work	Results by industry
About	/about	Founder story and team
Contact	/contact	Book a strategy call

Brand: yellow-and-black, Montserrat/Poppins, Uttarakhand golden-hour visuals for hospitality pages, clean product screenshots for AI pages.

Home page copy

Hero

Headline: AI that fills your pipeline. Marketing that closes it.

Sub-headline: Innspire Media builds AI automations and lead-generation systems for B2B startups, Airbnbs, boutique resorts and clinics. Leads get captured, qualified and followed up in minutes, not days.

Buttons: Book a free growth audit · See how it works

Trust strip (logo row): SETMI India · Sri Sri Foods · R K Garg Jeans · Kalyani Springs · Sewa Gift Palace · Marshee · StarMAX Aesthetics · Chand Pet Clinic · The 11:11 Spacce · Zephyr Estate · The Bougainvillea Retreat · River Roots Catering · Antar World. Names and logos only, no addresses or client numbers; confirm each client is fine being shown.

The problem

Most businesses don't have a lead problem. They have a follow-up problem.

- Enquiries sit in DMs, WhatsApp and inboxes for hours.
- Nobody knows which leads are serious.
- Ad spend goes up, bookings and meetings don't.

What we do (3 pillars)

1. **AI automations:** AI agents that reply on WhatsApp, Instagram and your website 24/7, qualify leads, and book calls, stays or appointments.
2. **Lead generation:** Meta, Google and LinkedIn campaigns built around one goal: qualified leads at a cost you can scale.
3. **Growth marketing:** content, social and brand that make your ads convert and your business look like the obvious choice.

Industries we serve (4 cards)

- **B2B, Manufacturers & Exporters:** From electronics and textiles to food exports and industrial goods, we build pipelines that bring buyers, distributors and export enquiries.
- **Startups:** Pet tech, wellness, astrology and consumer brands get launch content, founder-led videos and lead funnels that scale.

- **Airbnbs, Homestays & Boutique Resorts:** More direct bookings, events and weddings, with guest enquiries answered in minutes.
- **Clinics, Healthcare & Wellness:** Aesthetic clinics, pet clinics and wellness studios turn enquiries into booked appointments, with reminders automated.

Also: food and catering, retail and gifting brands.

How it works

1. **Audit:** we map where your leads come from and where they leak.
2. **Build:** we set up campaigns plus the AI agent that handles every enquiry.
3. **Scale:** weekly reporting on cost per lead, conversion and revenue, then we double down on what works.

Built on Claude

Our automations and in-house products run on Claude by Anthropic. It reads messages in English and Hinglish, understands intent, and responds like your best team member.

Proof

- Case study: Zafire Street, Mussoorie. (Add 1 headline result.)
- Leads generated for clients in the last 12 months: (add number)
- Industries served and active clients: (add numbers)

Final CTA

Find out where your leads are leaking. Book a free 30-minute growth audit. We'll show you exactly what to automate first.

Button: Book my audit

AI product section — Land Desk

This section proves Innspire builds its own AI product, which is the strongest signal for the Claude for Startups application. Put a short version on the home page and a full page at /land-desk.

Headline: Your land deals, searchable in plain English.

Sub-headline: Land Desk turns WhatsApp deal messages and plot photos into a searchable inventory. Ask "5 bigha+ near Mussoorie road under ₹2 Cr" and get matching parcels in seconds.

The problem: Brokers and land bankers run inventory through WhatsApp groups, forwarded images and memory. Deals get lost, the same parcel shows up from five brokers, and matching a buyer takes hours.

How it works:

1. **Drop in deals:** paste messages, forward texts, upload plot sketches and listing photos.
2. **AI structures them:** location, area (bigha/acre), rate, road access, title status and contact pulled into clean records.
3. **Ask anything:** plain-language search returns ranked matches with the original message attached.

Powered by Claude:

- Reads messy Hinglish deal messages and images.
- Flags duplicate listings of the same parcel.
- Answers natural-language queries across the whole inventory.

Who it's for: land brokers, land bankers, investors and developers buying bulk parcels in Uttarakhand, Himachal and Delhi NCR.

Status line: Used daily by our own land advisory team. Early access open for brokers.

CTA: Request early access

Visual: a real screenshot or short GIF of a query and its results. Do not use a mock-up if the product works.

Industry pages

Each page follows the same structure: headline, pain points, what we build, outcomes, CTA. Swap in real results as you get them.

B2B Startups, Manufacturers & Exporters (/b2b)

Headline: Pipeline on autopilot for early-stage B2B.

Sub-headline: You built the product. We build the engine that puts qualified demos on your calendar every week.

Who we work with: tech startups, manufacturers (electronics, textiles, industrial components), wholesale and gifting brands, and food exporters looking for international buyers.

Sound familiar?

- Founder-led sales doesn't scale past the first 10 customers.
- Outbound gets ignored and ads bring the wrong leads.
- No CRM discipline, so warm leads go cold.

What we build:

- **AI-researched outbound:** prospect lists built and personalised with AI, sent across email and LinkedIn.
- **LinkedIn and Meta lead gen:** campaigns targeted by role, industry and company size.
- **AI lead qualification:** every inbound lead scored and routed; hot leads get a reply in under 5 minutes.
- **Founder content engine:** LinkedIn posts, case studies and sales decks that build trust before the first call.
- **CRM and follow-up automation:** no lead left without a next step.

Outcome line: More qualified demos, lower cost per meeting, a pipeline you can forecast.

CTA: Get a free pipeline audit

Airbnb & Homestays (/airbnb)

Headline: More direct bookings. Less OTA commission.

Sub-headline: We run your Instagram, ads and guest messaging, so your property books itself while you focus on the stay.

Sound familiar?

- 15–20% of every booking goes to Airbnb or booking platforms.
- Guest enquiries come in at midnight and nobody replies.
- Great property, but the Instagram doesn't show it.

What we build:

- **Direct booking funnel:** Instagram and Meta ads that send guests to WhatsApp or your booking page.

- **AI guest concierge:** answers availability, pricing, check-in and local questions 24/7 on WhatsApp and Instagram.
- **Content that sells the stay:** reels, golden-hour shoots and story sequences built around your property's best moments.
- **Repeat-guest automation:** post-stay reviews, offers and festive campaigns.

Credibility line: We run our own homestays in Dehradun and Haridwar. Every strategy here is tested on our own properties first.

CTA: Get more direct bookings

Boutique Resorts (/resorts)

Headline: Fill rooms, weddings and weekends.

Sub-headline: Marketing and AI automation for boutique resorts that sell an experience, not just a room.

Sound familiar?

- Weekdays and off-season sit empty.
- Wedding and event enquiries take days to quote.
- Your brand looks like every other resort online.

What we build:

- **Multi-revenue campaigns:** separate funnels for stays, weddings, corporate offsites and dining.
- **AI enquiry desk:** instant replies with packages, dates and pricing; serious enquiries routed to your sales team.
- **Event lead generation:** destination wedding and corporate offsite campaigns targeting Delhi NCR.
- **Premium brand content:** cinematic reels, drone shoots and storytelling that justifies premium pricing.

Outcome line: Higher occupancy, more event bookings, faster response to every enquiry.

CTA: Plan my next season

Clinics, Healthcare & Wellness (/clinics)

Headline: Turn enquiries into booked appointments.

Sub-headline: Patient lead generation and appointment automation for clinics, aesthetic centres, pet clinics, dental practices and wellness or pilates studios.

Sound familiar?

- Leads from ads never get called back.
- Front desk is overloaded with the same questions.
- No-shows waste doctor time.

What we build:

- **Patient lead generation:** Meta and Google campaigns for your top treatments and services.
- **AI appointment assistant:** answers FAQs on WhatsApp, shares timings and pricing, and books slots.
- **Reminders and follow-ups:** automated confirmations, reminders and post-visit review requests to cut no-shows.
- **Trust-building content:** doctor-led videos, patient education and before/after content (where allowed).

Compliance line: AI handles bookings and general questions only. Medical advice always comes from your doctors, and patient data stays private.

CTA: Fill my appointment book

AI Automations & Lead Generation (/ai-automations)

Headline: Every lead answered. Every lead qualified. Every lead followed up.

Sub-headline: We combine paid lead generation with AI agents that work your enquiries 24/7, so no lead is lost to a slow reply.

The system

1. **Attract:** Meta, Google and LinkedIn campaigns bring in the right audience.
2. **Respond:** an AI agent replies on WhatsApp, Instagram DM or your website within seconds.
3. **Qualify:** it asks the right questions (budget, dates, need, location) and scores the lead.
4. **Convert:** hot leads get booked into a call, stay or appointment; your team gets a summary.
5. **Nurture:** leads not ready yet get automated, personal follow-ups until they are.

What we automate

Automation	What it does	Best for
AI WhatsApp / Instagram agent	Replies, answers FAQs, books	All industries
Lead qualification and scoring	Scores and routes every lead	B2B, resorts
Appointment booking + reminders	Books slots, cuts no-shows	Clinics
Guest concierge	Handles availability, check-in, local tips	Airbnbs, resorts
AI-personalised outbound	Researches prospects, writes first touch	B2B startups
CRM sync and reporting	Logs every lead, weekly dashboard	All industries

Built on Claude

We build our agents on Claude by Anthropic because it understands context, handles Hinglish naturally and follows business rules reliably. Your agent is trained on your pricing, policies and tone, and hands off to a human whenever it should.

Why not just a chatbot?

Old chatbots follow scripts and break on the first unexpected question. Our AI agents understand what the customer actually means, and they're tied to your ads, CRM and calendar, so a conversation ends in a booking, not a dead end.

CTA: See it work on your business. Book a demo.

About, proof, FAQ, contact & SEO

About (/about)

Headline: Operators who build, not just advertise.

Story: Innspire Media started in real estate and hospitality marketing in Delhi NCR. We also run our own homestays and a land advisory practice in Uttarakhand, so we learned first-hand where leads leak: slow replies, no follow-up, scattered data. We started building

AI tools to fix that for ourselves. Now we build the same systems for B2B startups, hospitality brands and clinics.

Founder: Parinay Panwar, Founder. B.Tech in Computer Science. Leads strategy and AI product at Innspire, and built Land Desk, our AI inventory tool for land deals.

Team: add photos and roles of the core team.

Values:

- **Speed:** every lead deserves a reply in minutes.
- **Proof:** we report on leads and revenue, not likes.
- **Ownership:** we test on our own businesses before yours.

Work / Case studies (/work)

One card per case study, same format: client, industry, problem, what we built, result (number), short quote. Start with Zafire Street, Mussoorie, then add one each for B2B, hospitality and clinics as soon as you have results. Only show clients and numbers you have permission to share.

Brands we've worked with (grid by industry, names and logos only):

Industry	Brands
B2B, manufacturing & export	SETMI India, Kalyani Springs, R K Garg Jeans, Sri Sri Foods, Sewa Gift Palace
Startups	Marshee Pet Tech, Antar World
Hospitality	The Bougainvillea Retreat & Terrace of Doon, Zephyr Estate, River Roots Catering
Healthcare & wellness	StarMAX Aesthetics, Chand Pet Clinic, The 11:11 Spacce

FAQ

- **Do you only run ads?** No. We build the full system: ads, AI agent, follow-up and reporting.
- **Will the AI sound robotic?** No. It's trained on your tone, pricing and policies, and hands over to your team when needed.

- **Which platforms does it work on?** WhatsApp, Instagram, Facebook, website chat and your CRM.
- **How fast can we go live?** Most setups take 2–3 weeks from audit to launch.
- **Do you work outside Delhi NCR?** Yes. We work with clients across India and internationally.
- **Is patient or customer data safe?** We only collect what's needed and never use it for anything else.

Contact (/contact)

Headline: Let's find your fastest growth lever.

Form fields: Name, business name, industry (B2B / Airbnb / Resort / Clinic / Other), monthly marketing budget, what you want help with, WhatsApp number.

Below form: Prefer WhatsApp? Message us directly. Email: use your @innspiremedia.com address. Office: Delhi NCR.
